Number: 3	Pedestrian: Pending Notification	Injury: Fatal
	Address: Monument, NM	Age: 51 Female

COLLISION DETAILS:

On December 28, 2022, at approximately 7:40 p.m., a double fatal auto versus pedestrian x2 hit and run collision occurred at the intersection of Fremont Street and 4th Street. Evidence at the scene, witness statements, and video surveillance of the collision indicated two pedestrians were crossing Fremont Street on 4th Street against a don't cross pedestrian signal from east to west. A burgundy GMC Acadia was traveling northbound 4th Street with a green traffic signal. A collision occurred when the front of the GMC Acadia struck the two pedestrians. The GMC Acadia fled the collision scene northbound 4th Street and did not return. Arriving medical personnel determined the male pedestrian was beyond medical intervention and was pronounced deceased at the collision scene. Medical personnel transported the female pedestrian to UMC Trauma for advanced medical treatment. Despite all life-saving measures the female pedestrian succumbed to her injuries and was pronounced deceased at UMC Trauma by medical personnel.

The GMC Acadia and driver were quickly located by police and was taken into custody. The driver of the GMC Acadia displayed signs of impairment and was arrested for DUI and hit and run charges.

The pedestrians deaths mark the 150th and 151st traffic-related fatalities in the Las Vegas Metropolitan Police Department's jurisdiction for the year 2022. This collision remains under investigation by the Las Vegas Metropolitan Police Department's Collision Investigation Section.
